

Why Choose City Duct Cleaning?

- ❖ We have the highest powered Duct Cleaning truck in the business!
- ❖ Our equipment is P.T.O. Driven, with 45,000 c.f.m. of Vacuum & 250 p.s.i. of compressed air
- ❖ Free Furnace Cleaning
- ❖ Over 25 years of serving the residents of Greater Sudbury and area

City Duct Cleaning uses specialized vacuum equipment and compressed air, including an assortment of high-pressure air sweepers, power brushes, and our prized “Predator” to thoroughly clean your ductwork. Cleaning of the furnace fan, motor, blowers air conditioning (evaporator) coil and furnace box are always included in every job. A complete cleaning is relatively inexpensive and can pay for itself in energy savings alone. We recommend that this service be completed at least once every three years.

City Duct Cleaning does NOT use telemarketing services. We do NOT go door to door and we do NOT sub-contract our work to other duct cleaning companies.

***A clean furnace and ductwork
ensures a breathing –friendly
environment***
